

DESIGN PROPOSAL **SPALDING - DENIS RESIDENCE**

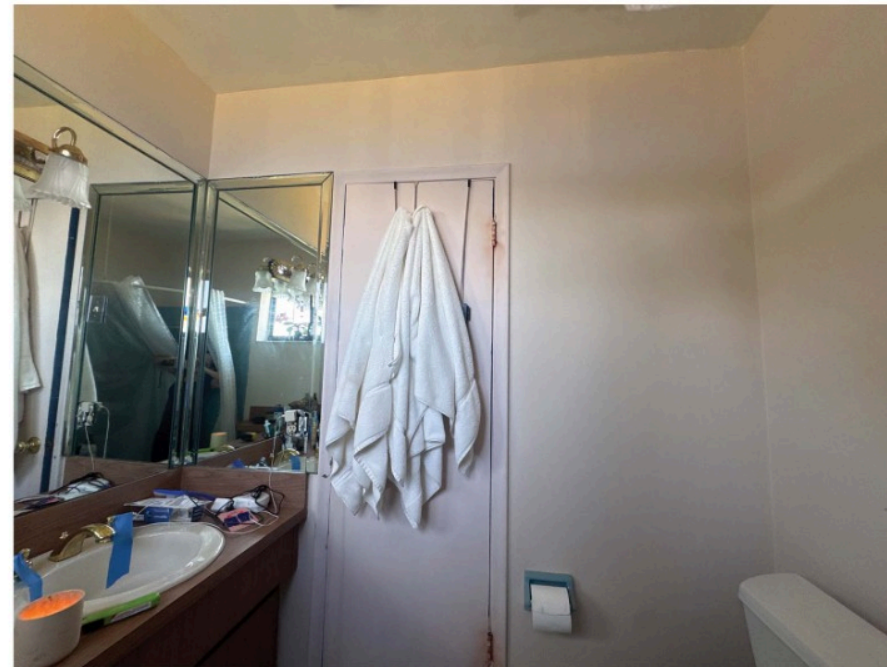

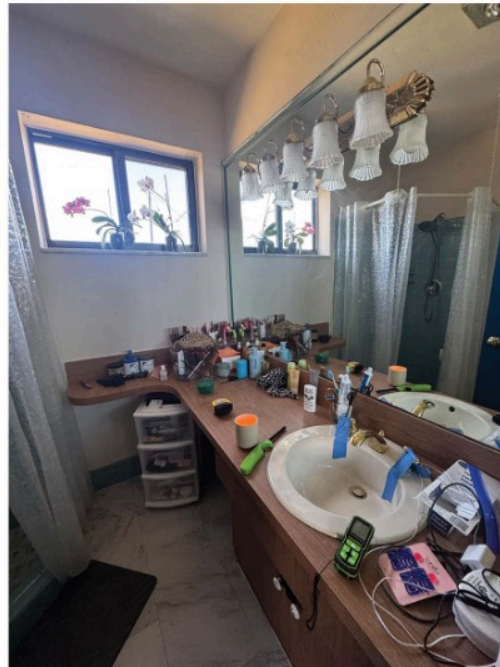

Design and development of two bathrooms featuring a modern, contemporary aesthetic with budget-friendly solutions.

BATHROOM 2

DESIGN PROPOSAL BATHROOM2

Existing condition of the bathroom

Existing condition for bathrrom 2

The current bathroom layout is not optimal. does not make efficient use of the space for the counter and the shower is uncomfortably small.

BATHROOM 2

Design

NEW PROPOSED DESIGN

We will preserve the existing layout while maximizing the space with new furniture and bathroom fixtures. The shower will feel more spacious thanks to a geometric glass enclosure, and the new vanity dimensions will create a more open, airy atmosphere.

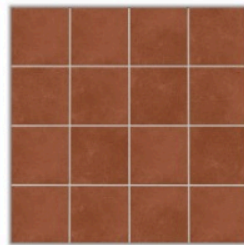

Proposed view of the new bathroom

detailed floorplan with new bathroom location / design

Color and materials scheme

For this bathroom, we are using an earthy color palette highlighted by terracotta tiles and warm tones. A wooden sink and cabinet provide balance, creating a natural, grounded feel, while gold accents add warmth and sophistication.

Havasupai Falls 3" x 10" Glossy Ceramic Wall Tile

SPALDING RESIDENCE

BATHROOM 2

Design

Overall space and material ambience

bath fixtures and lighting

We will relocate the outlets and switches, and we will add a dimmable mirror light with adjustable color temperature. We are proposing a tankless bidet toilet and a multifunction smart shower to upgrade the bathroom to a more energy-efficient and high-tech option while staying within budget

Final Bathroom design
GOLDEN RESIDENCE

wooden vanity sink

Smart Bidet Toilet

Cabinet above the toilet

bath fixtures and lighting

The shower area feels inviting and airy, featuring warm terracotta tones and an open limestone ceramic that brings a more earthy vibe to the bathroom.
